Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner contacted Applicant to propose and Examiner's Amendment in order to place the Application in condition for allowance. The proposed Amendment corrected 35 USC 112 issues relating to possible new matter for the term "overpress", typographical errors of repeating "curing the layers of fabric on the base tool", clarifying what the elastomeric member is overlying, directing the claim to the originally presented species of the elastomeric member on the roll being the same as the elastomeric member in the vacuum bag, and correcting lack of antecedent basis in claim 12. Applicant agreed to the changes. (The proposed Examiner's Amendment faxed to the Applicant is enclosed with the Interview Summary).
